Executive Director

Subject: **DRAFT PROGRAM OF PROJECTS FOR THE FEDERAL FISCAL YEAR 2010-11 FTA SECTION 5310 ELDERLY AND DISABLED TRANSIT PROGRAM**

Under Government Code Section 14055-14055.4, the Commission is responsible for allocating funds, establishing an appeals process and holding at least one public hearing prior to approving the Program of Projects for the Federal Transit Administration Section 5310 Elderly and Disabled Transit Program (Program).

Federal Fiscal Year (FFY) 2010-11 Program Grant Cycle

The current estimate of available federal funding for the FFY 2010-11 Program is $25.9 million (including the 11.47% match). Historically, Program participants have been required to use their own funds to provide a local match of 11.47%, in this cycle however, successful applicants will not be required to provide the local match as it will be funded with federal Transit Toll Credits.

Eligible agencies submitted 133 applications for 626 projects requesting a total of $35.1 million in Section 5310 Program funds. The applications were scored by the Regional Transportation Planning Agencies (RTPAs). The State Review Committee reviewed the RTPA scores, and using the Program criteria adopted by the Commission, has developed a draft statewide prioritized project list.

On August 31, 2011, the State Review Committee and Commission staff will hold a staff-level conference to hear any appeals by RTPAs and/or project applicants. Following the conference, the list will be revised as necessary, and Commission staff will submit the final Statewide Prioritized Project List for Commission adoption at the September 2011 meeting.

At the same meeting, prior to adopting the Program, the Commission will hold the mandated public hearing to discuss the prioritized list and overall program policy. Following the hearing, the Commission may adopt the Statewide Prioritized Project List for the FFY 2010-11 Federal Transit Administration Section 5310 Elderly and Disabled Transit Program.

Attached are the letter and the draft FFY 2010-11 Statewide Prioritized Project List as submitted to the RTPAs and to project applicants. The draft list of projects represents nearly 120% ($30.8 million) of the estimated available federal funding to allow flexibility for replacement if projects within 100% of available funding are not deliverable.

BACKGROUND

The Program was established in 1975 and has been administered by the Department since its inception. It provides annual grants of federal funds to purchase transit capital equipment to meet the specialized needs of elderly and/or disabled persons for whom mass transportation services are unavailable, insufficient, or inappropriate.

The Program serves a variety of client groups and programs ranging from small agencies with specific clientele (e.g., dialysis and AIDS patients) to paratransit providers serving entire communities. Most of the agencies are non-profit organizations while some are public agencies where non-profit organizations are not readily available to provide the specialized service.

In 1996, AB 772 passed directing the Commission to have oversight responsibilities for the Program. AB 772 placed three mandates on the Commission regarding the Program: (1) the Commission shall direct the Department on how to allocate funds for the Program, (2) the Commission shall establish an appeals process for the Program, and (3) the Commission shall hold at least one public hearing prior to approving its Program of Projects.

In January of 1997, the Commission approved the procedures for the Program, criteria used to score the projects, and a State Review Committee consisting of representatives from the State Departments of Rehabilitation, Aging, Developmental Services and Transportation, with Commission staff acting in the role of facilitator/coordinator for the State Review Committee.

In accordance with the Commission's adopted procedures, the RTPA or its designated Regional Evaluation Committee scores projects within its jurisdiction utilizing the Commission's adopted project scoring criteria and forwards a scored list of their projects to the Department. The RTPA must notify its applicants of their project scores and provide information about the local appeals process. The State Review Committee rescores the projects to verify the scores given at the regional level. In those instances where there is a sizable difference between regional and State Review Committee project scores, the Department contacts the regions and the differences are thoroughly discussed.

A statewide prioritized list of projects is then created representing at least 110% of the estimated available funds. Typically, the Commission adopts the Program of Projects down to at least the 110% funding level to allow flexibility for replacement if projects within 100% of available funding are not deliverable.

July 26, 2011

TO: REGIONAL TRANSPORTATION PLANNING AGENCIES
APPLICANTS FOR THE ELDERLY AND DISABLED TRANSIT PROGRAM

The State Review Committee has verified the scored applications for the Federal Fiscal Year (FFY) 2011 Elderly and Disabled Transit Program (Title 49 U.S.C. Section 5310) received from the Regional Transportation Planning Agencies. Program criteria adopted by the California Transportation Commission (Commission), was used to develop the enclosed draft statewide prioritized project list.

In those instances where there was a sizable difference between regional and State Review Committee (SRC) project scores, the regions were contacted by the Department of Transportation (Department) and the differences thoroughly discussed. The projects have been prioritized based on the Commission's adopted procedures for prioritizing projects.

Approximately $25.9 million in federal funding (including the 11.47% local Toll Credit match) is expected to be available. Given this estimate, projects with a score of 79 and above would be candidates for funding, dependent on the outcome of the staff level conference scheduled on August 31, 2011.

Commission staff will recommend a final adopted list that represents a level of project funding down to $30.8 million, nearly 120% of the estimated available federal funding, to allow flexibility for replacement if projects within 100% of available funding are not deliverable. The 120% funding line is a score of 71 and above.

The staff level conference scheduled on August 31, 2011 at 9:30 a.m. will be held in the Division of Mass Transportation's conference room located at 1120 N Street in Sacramento. The purpose of this conference is to discuss the draft statewide-prioritized project list and hear any appeals on technical issues. Only appeals based on actions that occurred at the statewide level will be considered. The appealing agency must demonstrate by using documentation from its original application that the Commission's adopted program criteria were incorrectly applied by the SRC.

Agencies planning to make a technical appeal must call the Department at their toll free number (888) 472-6816 to schedule a speaking time. Each agency will be allowed a maximum of 10 minutes for their appeal. The appeal must also be submitted in writing, and can be brought to the staff level conference, faxed, or mailed to the following address:

State Review Committee - Section 5310
c/o Department of Transportation
1120 N Street, Room 3300 - MS 39
Sacramento, CA 95814
Attention: Ms. Helen Louie

FAX: 916-654-9366

After the conference, the State Review Committee will revise the list as necessary, and Commission staff will submit the final statewide-prioritized list for adoption. The Commission will hold its mandated public hearing during its September 2011 meeting to discuss the prioritized list and overall program policy. Following the hearing, the Commission may adopt the Statewide Prioritized Project List as the FFY 2010-11 Program of Projects (POP) for the Federal Transit Administration Section 5310 Elderly and Disabled Transit Program.

Sincerely,

JUAN GUZMAN
Associate Deputy Director
