

# Memorandum

To: CHAIR AND COMMITTEE MEMBERS,  
CALIFORNIA ROAD CHARGE TECHNICAL  
ADVISORY COMMITTEE

TAC Meeting: September 16, 2015

Tab No.: 6  
Information

From: WILL KEMPTON  
Executive Director

Subject: ROAD CHARGE WORKGROUP UPDATE

## ISSUE:

The Road Charge Workgroup (Workgroup) met via teleconference on September 10<sup>th</sup> to discuss the policy issues being considered by the Technical Advisory Committee (TAC) at the September 16<sup>th</sup> meeting. TAC Chair Jim Madaffer participated on the call.

During the September 10<sup>th</sup> teleconference, Commission staff provided a brief summary of key policy decisions made at the August TAC meeting as well as the policy decisions the TAC will be considering at the September 16<sup>th</sup> TAC meeting. The following is a summary of workgroup member comments and feedback:

- There was some concern over the volume of material for the September TAC meeting and inadequate time to review. However, it was explained that the material provided was a compilation of the briefing materials provided for previous meetings, and no new material was being presented. And while the TAC will be revisiting all pilot program design considerations at the September meeting the workgroup input into the design is on-going and any feedback or concerns will be provided to the TAC in their deliberations and preparation of the recommendations report.
- The adoption of a revenue neutral rate for the pilot program was discussed and how might the TAC be involved in the rate setting if a road charge program would be implemented statewide.
- In testing enforcement it was recommended that not only recording and reporting anomalies be identified but also payment issues.

The workgroup did not formally agree to any consensus points to present to the TAC, however workgroup members were encouraged to provide comments on behalf of their individual organizations. The next workgroup meeting will be held Wednesday, October 14<sup>th</sup> in preparation for the October 23<sup>rd</sup> TAC meeting.

**BACKGROUND:**

Stakeholder engagement in the pilot program development process is critical. To facilitate stakeholder input, a Road Charge Workgroup consisting of 22 members was formed to meet specific consultation requirements outlined in Senate Bill (SB) 1077 and to support the TAC as a resource to efficiently gather and provide expert input on the design and evaluation of a road charge pilot program.

The workgroup is chaired by Anne Mayer, Executive Director of the Riverside County Transportation Commission. Workgroup participants include representatives from a wide variety of areas including: vehicle users; vehicle manufacturers; fuel distributors; tribal governments; social equity and sustainability advocates; taxpayers; state, local, and regional transportation agencies; and building, construction, business and economy interests. As a resource for the TAC, the Workgroup is complementary to the larger public engagement process being undertaken by the TAC.

Attachment: Road Charge Workgroup Roster

## Road Charge Workgroup Roster

Name	Organization	Title	Area of Representation
Anne Mayer (Chair)	Riverside County Transportation Commission	Executive Director	Regional Agency
Curt Augustine	Alliance of Automobile Manufacturers	Director of Policy & Government Affairs	Vehicle Manufacturers
