Subject: **UPDATE ON PROJECTS DELIVERED BUT NOT YET VOTED**

RECOMMENDATION:

The California Department of Transportation (Department) recommends the California Transportation Commission (Commission) accept the attached report on the status of State Transportation Improvement Program (STIP) and the Proposition 1B Bond Program projects that have been delivered (deemed ready to go).

ISSUE:

Due to financial constraints of the State, the Commission has been unable to allocate funds to allow the implementing agencies to award contracts for transportation projects that have been delivered.

BACKGROUND:

The attached lists identify those projects that have been delivered in Fiscal Year (FY) 2008-09, FY 2009-10, and FY 2010-11 but the agencies have not been able to proceed due to funding constraints. Some projects previously listed have been removed based on past Commission action or a request from the implementing agency.

With the adoption of the 2010 STIP, projects may have been deleted, proposed for vote or have been reprogrammed beyond the 2010-11 fiscal year. As noticed at the June-July 2010 Commission meeting, projects reprogrammed to a future fiscal year have been removed from the Delivered List report. Local agencies with projects reprogrammed in a future year will need to resubmit an allocation request with a new schedule and funding plan when they are ready to proceed closer to the programmed year.

The projects on the Delivered List attachments are in no particular priority order. The lists are arranged by project category, then district, then county. The current requested allocation amounts by category are reflected on the next page.
