

# Memorandum

To: CHAIR AND COMMISSIONERS

CTC Meeting: June 25, 2015

Reference No.: 4.1  
Action

From: WILL KEMPTON  
Executive Director

Subject: **STATE AND FEDERAL LEGISLATION**

## **ISSUE:**

- 1) Does the California Transportation Commission (Commission) have comments on the legislation identified and monitored by staff?
  - ✓ 33 bills did not pass out of their respective houses of origin by the June 5<sup>th</sup> deadline.
  - ✓ July 17<sup>th</sup> is the last day for policy committees to meet.
  - ✓ July 17<sup>th</sup> – August 16<sup>th</sup> the Legislature will be on summer recess.
  - ✓ September 11<sup>th</sup> is the last day for each house to pass bills.
  - ✓ 81 bills, identified in Attachment A, met the criteria approved by the Commission.
  
- 2) Should the Commission adopt a support position for Senate Concurrent Resolution (SCR) 45?

## **RECOMMENDATION:**

Staff recommends that the Commission:

- 1) Accept the staff report and provide direction to staff on legislation of interest to it; and
- 2) Adopt a position of support for SCR 45, and direct staff to prepare and send a letter to the Author as notification of the Commission's support.

## **SUMMARY:**

### **Extraordinary Session – Transportation Funding**

Per the Governor's Proclamation made on June 16<sup>th</sup>, a Special Extraordinary Session of the Legislature convened on June 19<sup>th</sup> to address transportation infrastructure funding. Staff will be monitoring the special session proceedings closely.

### **Budget Update**

#### **AB 93 (Weber [D – San Diego]) Budget Act of 2015**

*Status: June 15, 2015 – To Governor*

*Position: Monitor*

Makes appropriations for the support of State Government for the 2015-2016 fiscal year.

**AB 95 (Assembly Budget Committee) Transportation Trailer Bill***Status: June 19, 2015 – To Governor**Position: Monitor*

Provides for a variety of transportation-related matters including: funding for the Walerga Sound Wall project in Sacramento County, previously proposed to receive State Highway Account funding, has been amended to allow for the use of fuel excise tax revenues apportioned to Sacramento County or from other transportation funds available to the county for the project. Additionally, AB 95 includes provisions for the relinquishment of the Tower Bridge to the Cities of Sacramento and West Sacramento. Budget Bill AB 93 includes a provision allowing for the Department of Finance to increase the budget appropriation for the State Highway Account (capital outlay) up to \$15 million for relinquishment of State Route 275, the Tower Bridge, based on negotiations between Caltrans and either the City of Sacramento and/or West Sacramento, provided the Commission makes a finding that the relinquishment and the negotiated price is in the best interest of the state.

**SB 97 (Senate Budget and Fiscal Review Committee) Budget Act of 2015 Amendments***Status: June 19, 2015 – To Governor**Position: Monitor*

Amends the Budget Act of 2015 by revising items of appropriation. Of specific interest to the Commission, this bill removes \$25 million of Cap and Trade funding that would have been appropriated to the Active Transportation Program. Current ATP fund estimates and programming did not include this augmentation of Cap and Trade funding.

**Legislative Issues – Changes to Priority Bills:****SB 16 (Beall [D – San Jose]) Transportation Funding***Status: June 1, 2015 – In Senate, third reading**Position: Support*

Creates a Road Maintenance and Rehabilitation Program (RMRP) to address deferred maintenance on the state highway system and the local streets and road system. SB 16 would provide for the program to be authorized every 5 years by the Legislature, and would provide that authorization for the 2015–16 through 2019–20 fiscal years. The Commission will be required to identify the estimated funds to be available for the RMRP and adopt performance criteria to ensure efficient use of the funds.

SB 16 would continuously appropriate the funds in the account for road maintenance and rehabilitation purposes for each 5-year period in which the Legislature has authorized the program, and would, for those fiscal years, allocate 5% of available funds to counties that approve a transactions and use tax on or after July 1, 2015, with the remaining funds to be allocated 50% for maintenance of the state highway system or to the state highway operation and protection program (SHOPP), and 50% to cities and counties pursuant to a specified formula.

SB 16 would transfer revenues from \$0.02 of the \$0.12 increase in the diesel fuel excise tax to the Trade Corridors Improvement Fund (TCIF) for expenditure on eligible projects.

Currently Caltrans prepares the SHOPP every other year, based on an asset management plan, for the expenditure of transportation capital improvement funds for projects that are necessary to preserve and protect the state highway system. For each project in the SHOPP, Caltrans is required to specify the capital and support budget and projected delivery date for various components of the project. The Commission is required to review and adopt the program, however the Commission can decline to adopt the program if it determines that the program is not sufficiently consistent with the asset management plan. SB 16 would require the Commission, on and after February 1, 2017, to make an allocation of all capital and support costs for each project in the program, and would require Caltrans to submit a supplemental project allocation request to the Commission for each project that experiences cost increases above the amounts in its allocation. SB 16 would require the Commission to establish guidelines to provide exceptions to the requirement for a supplemental project allocation requirement that the Commission determines are necessary to ensure that projects are not unnecessarily delayed.

Existing law requires Caltrans to prepare and submit to the Governor a proposed budget and to develop budgeting, accounting, fiscal control, and management information systems to provide budget oversight. SB 16 would require Caltrans to present to the Commission, by April 1, 2016, a plan to increase department efficiency by up to 30% over the subsequent 3 years, with the ongoing savings to result in increased capital expenditures in the SHOPP or an increase in the state highway maintenance program.

On June 1<sup>st</sup> SB 16 was amended on the floor to provide for an appropriation from the Road Maintenance and Rehabilitation Account to the Commission for the costs of carrying out the duties associated with this bill.

*As reported at the May Commission meeting SB 16 will have a fiscal impact on the Commission due to additional staff resources needed to fulfill the statutory requirements.*

**SB 64 (Liu [D – La Canada/Flintridge]) – California Transportation Plan**

*Status: As of June 22, 2015 – Passed from Assembly Transportation Committee, with amendments, referred to Assembly Appropriations Committee*

*Position: Monitor*

SB 64 would require the Commission to review recommendations in the update to the California Transportation Plan prepared by Caltrans, providing specific action-oriented and pragmatic recommendations to the Legislature and the Governor beginning in 2015 and every 5 years thereafter. On June 22<sup>nd</sup> SB 64 was amended in the Assembly Transportation Committee requiring the Commission to include in the Annual Report to the Legislature specific action-oriented and pragmatic recommendations for transportation system improvements annually as opposed to every 5 years.

*As reported at the May Commission meeting SB 64 does not have an immediate fiscal impact on the Commission. However in future years, specifically fiscal year 17/18, when the limited term position expires, this legislation will have a fiscal impact on the Commission budget.*

**SB 321 (Beall [D – San Jose]) Motor Vehicle Fuel Taxes: Rate Adjustment**

*Status: June 15, 2015 – Referred to Assembly Revenue and Taxation Committee*

*Position: Support in Concept*

This bill makes changes to the administrative process for setting the price-based excise tax in order to give the State Board of Equalization (BOE) the tools necessary to reduce the overall volatility of this revenue. Specifically, SB 321 requires the State Board of Equalization to adjust the rate based on the average fuel price over the previous 4 fiscal years and the estimated price for the current fiscal year. Initially, SB 321 contained an urgency clause, however the bill was amended on the Senate Floor on May 27<sup>th</sup> removing the urgency clause and the 2/3 vote requirement for the bill.

**SCAX1-1 (Huff [R – Brea]) - Motor vehicle fees and taxes: restriction on expenditures**

*Status: As of June 19, 2015 – Introduced, pending referral*

*Recommended Position: Monitor*

SCAX1-1 is the first bill introduced in Special Session. This bill is the re-introduction of SCA 7. This proposed Constitutional Amendment makes changes to Article XIX of the State Constitution to place limits on how transportation taxes and fees can be used. Specifically, SCAX1-1 prohibits the borrowing of Section 2 revenues, instituting an across-the-board 25% limit on Section 2 revenues that can be used for bond indebtedness. Additionally, SCA 7 prohibits the borrowing of fuel excise tax revenues or vehicle licensing revenues that exceed 0.65% of the market value of a vehicle.

**SCR 45 (Berryhill [R – Fresno]) - Joe Levy Memorial Highway**

*Status: As of June 4, 2015 – currently in Senate Transportation and Housing Committee*

*Recommended Position: Support*

This Senate Concurrent Resolution designates the portion of State Highway 41 from Bullard Avenue to Herndon Avenue in the County of Fresno as the Joe Levy Memorial Highway; and requests Caltrans to determine the costs of erecting the appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from non-state sources covering that cost, to erect those signs.

Joe Levy served as a member of the California Transportation Commission March 1983 through February 1991, and served as the Chair of the Commission in 1986.

**BACKGROUND:**

The Commission approved criteria to guide Commission staff in monitoring legislation and selecting bills that should be brought forward for Commission consideration. An over-arching criterion is that a bill must directly affect transportation on a statewide basis. Bills meeting one or more of the criteria, provided below, will be brought forward to the Commission for consideration.

- Funding/Financing - funding or a funding mechanism for transportation (capital and operations)

- Environmental Mitigation - implementation of greenhouse gas emissions reduction and transportation (e.g., AB 32), and/or involve the environmental process and transportation (e.g., CEQA)
- Planning - implementation of transportation and land use and planning (e.g., SB 375)
- Project Delivery - changes to the way transportation projects are delivered

Additional criteria for bringing a bill forward include:

- Direct Impact to Commission - changes in Commission responsibility, policy impact or operations
- Commissioner Request - recommended by a Commissioner for consideration by the Commission at its next regularly scheduled meeting

The Commission adopted policy to 1) consider legislation in relation to its overall policy by topic area prior to taking a position on legislation addressing that topic; and 2) remain selective in its use of watch, support or opposition on a bill. The rationale for a policy by topic area is it permits the Commission to address a suite of legislative proposals dealing with the same topic by commenting to the author(s) without necessarily taking a position. Rather than taking specific positions on bills in their initial state, the Commission can advise the Legislature on a bill's policy and/or technical aspects, as well as how it helps or hinders transportation. The intent of the Commission's comments is to alert the Author of the bill's impact on a policy and/or technical aspect related to transportation planning, programming, financing, mitigation, or project delivery. Further direction will be provided to staff, by the Chair, on bills that meet the aforementioned criteria.
