Subject: STIP AMENDMENT 14S-10

RECOMMENDATION:

The California Department of Transportation (Department) recommends that the California Transportation Commission approve the requested State Transportation Improvement Program (STIP) Amendment 14S-10. This item was noticed at the Commission's March 2015 meeting.

ISSUE:

The City of Susanville (City) proposes to amend the 2014 STIP to reprogram \$1,846,000 in Regional Improvement Program (RIP) from construction in Fiscal Year (FY) 2015-16 to FY 2016-17 for the City Rehabilitation FC project (PPNO 2510) in Lassen County.

BACKGROUND:

The City Rehabilitation FC project is located in the City and includes rehabilitating the roadway, constructing drainage improvements and pedestrian facilities. This project was programmed in the 2012 STIP and received an allocation for the environmental phase in May 2014. It is currently programmed for \$1,846,000 in RIP funds for construction in FY 2015-16.

During the environmental process, it was determined that cultural studies were required. These studies were not anticipated and as a result, additional time is needed to complete the environmental phase.

Furthermore, it was determined that additional requirements are needed to ensure the project is compliant with the Americans with Disabilities Act. This has resulted in the need for additional time to incorporate these requirements. Because of these delays, the environmental process is taking longer than anticipated and will require a delay in construction.

The proposed funding plan changes are shown on the following table:
