On September 26, 2013 the Governor signed legislation creating the Active Transportation Program (Senate Bill 99, Chapter 359, and Assembly Bill 101, Chapter 354). The goals of this nearly \$130 million program are to:

- Increase the proportion of biking and walking trips.
- Increase safety for nonmotorized users.
- Increase mobility for nonmotorized users.
- Advance the efforts of regional agencies to achieve greenhouse gas reduction goals.
- Enhance public health, including the reduction of childhood obesity through the use of projects eligible for Safe Routes to Schools Program funding.
- Ensure disadvantaged communities fully share in program benefits (25% of program).
- Provide a broad spectrum of projects to benefit many types of active transportation users.

As the first step in developing this program, Commission staff will draft guidelines in consultation with an “Active Transportation Program Workgroup.” Pursuant to statute, the workgroup will include representatives of government agencies and stakeholders with expertise in pedestrian and bicycle issues including the Safe Routes to Schools program. The purpose of the workgroup is to provide guidance in areas such as:

- Development of program guidelines and subsequent revisions to guidelines.
- Program schedules and procedures.
- Project selection criteria.
- Performance measures.
- Program evaluation.

Commission staff intends for the workgroup process to be open and inclusive. In order to provide the greatest opportunity for input, Commission staff will hold workgroup meetings in various locations.

Below are the initial workgroup meetings:

Tuesday, October 8, 2013 at 1:00 p.m. (or following the Commission meeting if it adjourns after 1:00)
