3rd Floor, Metro Board Room
One Gateway Plaza, Los Angeles, CA 90012

Teleconference Call-in:

(877) 411-9748, Participant Code – 5283660

Workshop Purpose

The California Transportation Commission (Commission) and the California Department of Transportation (Caltrans) are co-hosting two kick-off workshops on the development of statewide comprehensive corridor plan guidelines and Caltrans corridor planning guidance.

The Commission is developing Comprehensive Congested Corridor Plan Guidelines for use by Caltrans and regional transportation agencies intending to apply for the second round of funding for the Solutions for Congested Corridor Program (SCCP). The purpose of these guidelines is to establish basic expectations for Comprehensive Corridor Plans associated with projects that are seeking funding through the SCCP. The Commission's guidelines are intended to address general requirements associated with the SCCP funding program and will be consistent with separate corridor planning guidance being developed by Caltrans.

Caltrans is preparing statewide guidance for the development of long-range, multi-modal corridor plans associated with the state highway system. This guidance will provide direction to Caltrans districts developing corridor plans in collaboration with partners and will be relevant beyond the SCCP.

AGENDA

1	Welcome/Workshop Purpose & Goals	Garth Hopkins California Transportation Commission Chris Schmidt Scott Sauer Caltrans
2	Review of Requirements for the Development/Adoption of Comprehensive Corridor Plans Guidelines as Part of the Solutions for Congested Corridors Program	Laura Pennebaker Mathew Yosgott California Transportation Commission
